

How to Choose Registers, Grilles and Diffusers

- Confirm the location of the opening:
Floor, wall or ceiling
- Measure the size of the airduct opening,
not the register or grille, e.g. 4"x10" or 6"x12"
- Determine if the opening is a supply
(Register) or a return (Grille)

Choose your style and finish:

- 1, 2 or 3mm Metal
- Solid or Flush Mount Wood
- Wood Wall Returns
- Plastic or Pop Up Registers
- Sidewall, Round Air Diffuser or Ceiling Register
